Aims and Scope:

Journal of Targeting, Measurement and Analysis for Marketing has developed into one of the world's leading forums for the latest thinking, techniques and developments on the measurement, analysis and targeting of marketing activities. The Journal has established itself as a key bridge between applied academic research and commercial best practice, globally.

Each issue of **Journal of Targeting, Measurement and Analysis for Marketing** publishes detailed and authoritative:

- Marketing briefings: addressing the issues confronting marketing practitioners in industry, consultancy and government
- Case studies: what the issue was, what was done, what the outcome was and what could have been done differently
- Research: from the leading business schools and research institutes
- Models and hypotheses: discussion of models and hypotheses relevant to marketing practice
